PROFESSIONAL SUMMARY

Software Developer with 2+ years of experience of Full Stack development in a product based organization. Keen to learn new technologies and a fast learner able to adapt quickly. Looking for an organization where I can grow myself technically and professionally along with the growth of the organization.

WORK HISTORY

Software Developer, 04/2018 to Current

Global IDs, Kolkata, West Bengal

Worked actively with Data Classification and Privacy Team as a Software Developer on developing high end modules of Global IDs product (Data Ecosystem Management Suite)

- **Glossary Management Module :** Developed and maintained two step approval process for Glossary management widely used across multiple clients worldwide and is highly appreciated by clients
- **Query Model Generation Module :** Developed and maintained query generation module which hops across data landscape and automates query generation
- **Semantic Mappings Module :** Developed interactive visualizations for table and column mappings across databases
- **Request Submission Module :** Multiple enhancements and fixes across this module which is used to maintain Data Privacy norms
- **API Testing Automation Scripts :** Wrote scripts for REST API Automation testing
